Dear Applicant,

Using the information that you provided, we have searched our records for the Death Certificate of the person named above. We are sorry to tell you that there is no record of the death in our files. We checked different spellings of the name. We also searched different death locations and several years before and after the year of death shown on your request. The search fee is retained in our office by state law and if you ordered the certificate with a credit card, the expedite fee is also non-refundable. If you paid for more than one copy, you may request a refund for the extra copies.

Since we do not have the death certificate on file, you may:

- Request the certificate again using different names, different county and/or different dates of death. The new search will require another non-refundable search fee.

or

- Start the process to file (create) a Delayed Death Certificate.

If you would like to start the process of filing a Delayed Death Certificate, we will be happy to send you the forms and instructions that you need. To receive the forms and instructions, please check the block below and return this form to:

Arkansas Department of Health
